SCHOOL

PROGRAM OVERVIEW

King's Town School offers an authentic Montessori Casa program for children ages 2.8–6, designed as a three-year journey that builds confidence, independence, and a joyful love of learning. In this child-centered environment, students explore at their own pace through beautifully prepared materials, guided by AMI-trained educators who introduce lessons when each child is developmentally ready.

COMMUNITY OF LEARNERS

Our Montessori classroom is a true multi-age community where younger children learn from older peers, and older students build confidence by modeling responsibility and care. This natural mentorship creates a calm and collaborative environment.

ACTIVE, ENGAGED LEARNING

Children choose their work and engage deeply, while the Directress observes, records progress, and introduces new lessons at just the right moment. This approach nurtures curiosity, intrinsic motivation, and a love of learning that carries into elementary years.

SEEING IS BELIEVING

Families are warmly invited to schedule a classroom observation. The beauty, independence, focus, and joyful engagement of Montessori education are best experienced firsthand. Our AMI-qualified staff look forward to showing you the Montessori difference.
